Welcome to Jacobs!

- Who Is Jacobs?
- Why We’re Excited!
- Integration Highlights
- Employee Matters
End-Market Diversity

- Aerospace & Technology: 36%
- Buildings & Infrastructure: 29%
- Industrial (Incl. Field Services): 14%
- Petroleum & Chemicals: 22%

Operating Profit

>$10 billion annual revenue
- Aerospace & Technology: 24%
- Petroleum & Chemicals: 32%
- Industrial: 24%
- Buildings & Infrastructure: 20%
50,000+ employees serve multinational clients

World-class projects demand sophistication and depth that comes with size and track record.
Our values stand on a foundation of SAFETY and INTEGRITY.

**Intelligence & Information Solutions (I2S)**
- Voice & Data Network Design, Engineering, O & M; Cybersecurity and Insider Threat; Intel Analysis; Data Center Design and Operation
- Army, SOF, Marine Corps, Navy, Air Force, DOE, U.S Intelligence Community; Other Government Agencies

**Systems Acquisition, Logistics, Test, & Training (SALTT)**
- Systems Engineering, Software Development, Acquisition Planning and Program Management, Logistics Solutions, Test & Evaluation, Range O & M
- NASA, Air Force, Army, Navy, Marine Corps, ANG

**Jacobs Australia (JA)**
- Systems and Platform Engineering, Acquisition Planning and Program Management, Logistics Solutions, Test & Evaluation, Procurement, In-service support, ICT services
- Australian DoD, Navy, Army, Air Force, Border Force, Other Gov’t Agencies, Telstra

**National Security Solutions (NSS)**
- Data, Voice, & Video Network Engineering, Software Development, Network Operations, Service Delivery, Procurement & Logistics, Continuity of Gov’t, Cyber Security
- Intelligence Community, DoD, Other Fed Gov’t Agencies
National Security Solutions

• Network Operations
  – 24X7 Network Operations Center
  – Video operations
  – Strategic and tactical engineering
  – Procurement vendor maintenance

• Network Engineering
  – Architect and engineer complex, integrated, highly secure enterprise
    and mission network solutions

• Service Delivery
  – Project manage, engineer and implement comprehensive data, video,
    and voice solutions

• Procurement/Logistics
  – Primary IT procurement arm for large IC Agency
  – Warehouse operations & management

• Continuity of Government
  – Ensure C3 interoperability in all threat scenarios
  – Man, Operate, and Maintain equipment

• Cyber Security
  – Conduct vulnerability assessment and penetration analysis
  – Monitor networks; detect and mitigate External and Insider Threats
  – IdAM for IC-ITE
  – Firewall management for large IC Agency

### Federal Government Customers:
- U.S. Intelligence Community
- U.S. Special Operations Command (SOCOM)
- DoD Service Components: Army, Air Force, Navy, USMC
- Defense Information Systems Agency (DISA)
- Defense Logistics Agency (DLA)
- Department of Justice (DOJ)
- Federal Emergency Management Agency (FEMA)
- Department of Energy (DoE)
- Department of Treasury
- Federal Deposit Insurance Corporation
- Department of Health and Human Services
- Department of Homeland Security
- Department of Education
Jacobs Connected Enterprise

- Solutions that collect data from a wide variety of sensors, move the data across a network to a central repository where it can be analyzed to derive intelligence, and protect the data and the infrastructure that is now network-connected
  - Integrated Cyber-Physical Systems (e.g. sensors and controls connected to a network)
  - IT infrastructure and Networking (Wired and Wireless)
  - Cloud Computing (for processing/archiving large data sets and enabling data accessibility)
  - Data Analytics (to derive business intelligence…and solve problems)
  - Cybersecurity and Resiliency
The Change Curve

“The single biggest problem in communication is the illusion that it has taken place.”
